

Don't Delay! Enroll Today!

Have you heard the buzz? Sustainable business practices are catching on around the nation and are helping businesses save money and be better community partners.

What is sustainability and how does it apply to business? Simply put, a sustainable business incorporates common sense practices that balance economic interests with social responsibility and environmental concerns. Added values include enhanced competitiveness by increasing market value and consumer approval ratings, as well as providing a source of pride for employees and suppliers. More often than not, the result of implementing a sustainable business program can **cut costs!**

Learn how your business can put in place easy-to-implement activities that will increase consumer loyalty and help ensure the integrity of our planet for generations to come. Any type or size of business is eligible and can benefit from the program. **Schools, non-profits and other organizations** are also encouraged to enroll.

The Chamber's Sustainable Business Program is voluntary. A small annual fee is required (see below) to enroll. Receive certification and be recognized! Here are some of the benefits your business will receive:

- You will receive a framed certificate and decals
- You can display the Sustainable Business logo and decals at your workplace and on collateral
- Your business will be featured in Chamber newsletters and on their website
- Your business will be listed in Chamber publications as a Sustainable business in the area and used as a role model for other businesses
- You will have the opportunity to renew your certification annually at the original cost.

The program is designed to be user friendly, and assistance is provided each step along the way. Here are the 4 easy steps to enroll:

1. Fill out the form below and bring, fax or mail to the Chamber
2. Enclose your fee based on number of employees
3. Provide a contact person and phone number from your company
4. You will be contacted shortly to begin the certification process.
