

**Transportation Solutions
Pedi-Bike Working Group
1-26-09
5:15 p.m.**

I. Introductions

Present Joe Cashen, John Eastman, Sandi Gibson, Walter Magill, Theresa Lichtenfels, Emmanuelle Vital, and Sandy Evans-Hall, Diane Mitsch Bush

II. Open House

Open House formats – Identify top 3 plus all the other recommendations, survey people that attend. Gain feedback – did we miss anything, are there priorities within each area, are there priorities amongst all the areas, offer stickies so people can put them up on sheets. Anonymity is important. Possibly use colored dots for locations when they prioritize recommendations e.g. red = Steamboat, blue = West Routt, etc. Develop a survey online using zoomerang. Offer pizza and beer or something to eat/drink. City planning will help with large format printing.

III. Check in with Transportation Planning Groups

May want to check recommendations from Bike/Ped with Parks and Rec. department. Send out the recommendations to all planning groups to check – Sandy will send out the master list of recommendations to John Eastman and Diane Mitsch Bush. Include NEPA presentation with our Open Houses.

IV. STIP

Yampa River Core Trail is on the State Transportation Improvement Plan and money could be allocated funding in the Economic Stimulus - \$475,000. Need to have engineering and right of way identified – city staff is going to be working on this. Diane will check with Craig Robinson, Winnie Delliquadri, and CDOT to understand how this process will work.
