To date, 62 businesses in the Yampa Valley have participated in the Sustainable Business Program, one of the most accredited, diverse and encompassing programs of its kind in Colorado. Established in March of 2007 as a collaborative effort between the Steamboat Springs Chamber Resort Association and Environmental Solutions Unltd, the Sustainable Business Program has been changing the nature of business in the Yampa Valley. The program focuses on sustainability and the Triple Bottom Line - a new way to define business success. The Triple Bottom Line includes: financial success, social responsibility, proactive environmental management, and the inter-relationships between them. Our goal is to leave our planet in as good or better shape for future generations.
