Pinnacol Policyholder Seminars

Pinnacol Assurance's safety seminars help employers learn how to keep employees safe and their workers' compensation costs down. The courses emphasize real-world, practical information that can be applied to just about any company in any industry.

Most seminars are free to Pinnacol policyholders — and they're an easy way for association dividend program participants to satisfy their annual safety-training requirement.

Popular course topics include "Safety Program Development," "Construction Safety Management," and "Understanding the Workers' Compensation Process." We encourage all Pinnacol association members to consider attending one or more seminars.

The upcoming seminar schedule includes:

September

- Sept. 10 Time-saving Tips for Modified Duty
 Denver, Pinnacol Assurance
- Sept. 15 Creating a Written Modified Duty Policy
