

YOUNG PROFESSIONALS NETWORK MEMBER BENEFITS

The Young Professionals Network of Steamboat Springs was established in 2009, and is a community development program of the Steamboat Springs Chamber Resort Association. We are committed to providing our members with an outlet to build partnerships through professional development, philanthropic involvement and cultural, recreational and social opportunities.

Each business in the Steamboat Springs area can benefit from the continued growth of the Young Professionals Network; not only through the groups involvement with the community but also through the development of their employees.

In order to honor our members we hope you will submit a special offer from your business that will be distributed with membership renewal for 2011. Businesses are asked that their special offer is valid until December 31, 2011. Each YPN member will receive a membership card to show businesses to receive their special offer. All types of businesses are invited to participate.
