H1N1 Update

The CDC is releasing new guidance that recommends actions that non-healthcare employers should take now to decrease the spread of seasonal flu and 2009 H1N1 flu in the workplace and to help maintain business continuity during the 2009-2010 flu season. The guidance includes additional strategies to use if flu conditions become more severe and some new recommendations regarding when a worker who is ill with influenza may return to work. The guidance in this document may change as additional information about the severity of the 2009-2010 influenza season and the impact of 2009 H1N1 influenza become known. Please check www.flu.gov periodically for updated guidance. <http://www.cdc.gov/h1n1flu/business/guidance/>
